

An  
easier way  
to order  
contacts

## Members can now use their contact lens allowance online

We know that even though employees are busy, they always have a mobile device ready or a computer nearby. That's why they can order contact lenses online using ContactsDirect when they need to - without leaving their homes. And the best part is that they can use their in-network benefits to make sure they're getting the best price around. Plus, members can be sure that they can find what they need because ContactsDirect stocks the best selling brands. All with fast, free shipping!

### And it's an easy ordering process:

Members will go to  
[contactsdirect.com](http://contactsdirect.com)

They'll select their  
lenses from a wide  
selection of top  
selling brands

In-network vision  
benefits instantly  
apply to their  
purchase price

Contact lenses will  
ship as soon as the  
prescription is  
verified - most  
even ship that  
same day

And don't worry, for members who still prefer to visit their eye doctor in person to purchase contact lenses, nothing has changed. ContactsDirect is just one more way we're helping employees see life to the fullest.

Visit [www.contactsdirect.com](http://www.contactsdirect.com) today to check out this new, online in-network benefit that you can offer to employees.

\*ContactsDirect will abide by state laws that pertain to contact lens. \*\* Members whose prescriptions are more than a year old will need an updated prescription to make an online or in-person purchase using their benefits.
